Notes to Financial Statements
April 30, 2011 and July 31, 2010

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at April 30, 2011, and for all periods presented herein, have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company’s July 31, 2010 audited financial statements. The results of operations for the period ended April 30, 2011 are not necessarily indicative of the operating results for a full year.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

No recent accounting standards or interpretations issued or recently adopted are expected to have a material impact on the Company’s financial position, operations or cash flows.

NOTE 3 – SIGNIFICANT TRANSACTIONS

Effective April 28th, 2011 Vincent Franzone and Fred Jackson, Jr. resigned from their positions and appointed Robert W. George II as Chairman of the Board, CEO and President and James McLaughlin as CFO and Secretary.

On March 26, 2012, the board of directors appointed the following new officers and directors:

· David Hedderly-Smith – Chief Executive Officer and Chairman of the Board
· Robert W. George II – Director and President
· James McLaughlin – Director, Chief Financial Officer, and Treasurer
· David Saykally – Director and Secretary

Concurrently, Robert W. George II resigned as CEO and as the Chairman of the Board.

NOTE 4 – SUBSEQUENT EVENTS

On April 5, 2012, we entered into a non-binding letter of intent with Alix Resources Corp. (“Alix”) for the potential purchase of an option to acquire a 60% ownership interest in certain mineral properties known as the “Golden Zone Property” located in the State of Alaska (the “Property”). The Property is located along the south flank of the Alaska Range 15 miles west of the Parks Highway, approximately halfway between the cities of Anchorage and Fairbanks. Alix has the existing option on the Property (the “Underlying Option”) which was entered into in September of 2010 with Hidefield Gold Inc. and Mines Trust Company (collectively the "Owners") whereby Alix can earn up to a 70% interest in the Property.

The letter of intent contemplates the sale of an option to us which, when exercised in conjunction with the Underlying Option held by Alix, will result in our ownership of 60% of the Property, with Alix retaining 10% ownership.

Item 2. Management’s Discussion and Analysis or Plan of Operation

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements”. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Company Overview and Plan of Operations

We were incorporated on March 2, 2007, under the laws of the state of Nevada.

On April 5, 2012, we entered into a non-binding letter of intent with Alix Resources Corp. (“Alix”) for the potential purchase of an option to acquire a 60% ownership interest in certain mineral properties known as the “Golden Zone Property” located in the State of Alaska (the “Property”). The Property is located along the south flank of the Alaska Range 15 miles west of the Parks Highway, approximately halfway between the cities of Anchorage and Fairbanks. Alix has the existing option on the Property (the “Underlying Option”) which was entered into in September of 2010 with Hidefield Gold Inc. and Mines Trust Company (collectively the "Owners") whereby Alix can earn up to a 70% interest in the Property.

The letter of intent contemplates the sale of an option to us which, when exercised in conjunction with the Underlying Option held by Alix, will result in our ownership of 60% of the Property, with Alix retaining 10% ownership.

The letter of intent contemplates the sale of an option to us which, when exercised in conjunction with the Underlying Option held by Alix, will result in our ownership of 60% of the Property, with Alix retaining 10% ownership. In order to maintain our rights under the contemplated option agreement and ultimately exercise the option, the letter of intent contemplates that we will make the following payments:

a) pay Alix Resources an amount of CDN $1,000,000 as follows:

   i) an initial amount of CDN $200,000 upon execution of the Definitive Agreement;
   ii) an additional amount of CDN $300,000 on or before that date which is 12 months from the date of the Definitive Agreement; and
   iii) the remaining amount of CDN $500,000 on or before that date which is 24 months from the date of the Definitive Agreement;

b) fund CDN $3,500,000 in exploration expenditures as follows:

   i) an initial amount of CDN $1,500,000 on or before that date which is 12 months from the date of the Definitive Agreement; and
   ii) the remaining CDN $2,000,000 on or before that date which is 24 months from the date of the Definitive Agreement; and

c) assume all payment obligations of the Alix Group under the Underlying Agreement, including but not limited to:

   i) all outstanding and ongoing cash payments required under Section 2.3 of the Underlying Agreement;
   ii) all outstanding and ongoing share issuance obligations under Section 2.3 of the Underlying Agreement, such that Goldspan shall issue securities in its capital in lieu and in replacement of Alix Resources issuing securities in its respective capital;
   iii) all cash payment and share issuance obligations under Section 2.8 of the Underlying Agreement, such that Goldspan shall issue securities in its capital in lieu and in replacement of Alix Resources issuing securities in its respective capital; and
   iv) all lease payments, taxes or other amounts payable to the State of Alaska or other governmental authorities with respect to the Property.

Alix is required to notify the Owners of the Property of the letter of intent. Upon exercise of our option, the Owners will have the option to form a joint venture with us and Alix or sell their remaining 30% interest in the Property in exchange for an overriding perpetual royalty equal to 2.5% of the net smelter returns.

The letter of intent is non-binding and conditional upon the parties' entry into a definitive agreement, the completion of our due diligence on the Property, and the approval of the Owners and any necessary regulatory approvals.

Expected Changes In Number of Employees, Plant, and Equipment

We do not have plans to purchase any physical plant or any significant equipment or to change the number of our employees during the next twelve months.

Results of Operations for the three and nine months ended April 30, 2011

We did not earn any revenues from inception on March 2, 2007 through the period ending April 30, 2011. We can provide no assurance that we will produce significant revenues in the future, or, if revenues are earned, that we will be profitable.

We incurred operating expenses of $644,091 and net losses in the amount of $643,091 from our inception on March 2, 2007 through the period ending April 30, 2011.

We incurred operating expenses consisting of legal fees of $1,781 with a net loss in the amount of $1,781 during the three months ended April 30, 2011, compared to operating expenses and a net loss of $82,139 during the three months ended April 30, 2010. The operating expenses for the three months ended April 30, 2010 consisting of auditing fees of $3,300, investor relations of $57,112, legal fees of $8,881, officer and director expenses of $7,320, transfer agent fees of $450, travel and lodging expenses of $4,164 and other general and administrative expenses of $913.

We incurred operating expenses and a net loss in the amount of $177,128 during the nine months ended April 30, 2011, consisting of investor relations of $155,179, legal fees of $3,788, management fees of $18,000 and general and administrative fees of $161. These amounts are compared to the nine months ended April 30, 2010 in which we incurred operating expenses in the amount of $101,858 and a net loss in the amount of $100,858 during the nine months ended April 30, 2010, consisting of auditing fees of $7,800, investor relations of $57,112, legal fees of $10,015, officer and director fees of $14,270, transfer agent fees of $4,975, travel and lodging of $4,570 and general and administrative fees of $3,116.

Our losses are attributable to our operating expenses combined with a lack of any revenues during our current stage of development.

Liquidity and Capital Resources

As of April 30, 2011, we had no cash and no current assets. We had current liabilities of $58,309 and a working capital deficit of $58,309. We will require significant financing in order to perform the terms of the purchase transaction for the Golden Zone Property as contemplated by the Letter of Intent. We do not have any formal commitments or arrangements for the sales of stock or the advancement or loan of funds at this time. There can be no assurance that such additional financing will be available to us on acceptable terms, or at all.

Off Balance Sheet Arrangements

As of April 30, 2011 , there were no off balance sheet arrangements.

Going Concern

Our financial statements have been prepared on a going concern basis. As of April 30, 2011 we had a working capital deficit of $58,308 and an accumulated deficit of $643,090 since inception. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. The outcome of these matters cannot be predicted with any certainty at this time. These factors raise substantial doubt that we will be able to continue as a going concern. Management plans to continue to provide for our capital needs by the issuance of common stock and related party advances.

Critical Accounting Policies

In December 2001, the SEC requested that all registrants list their most “critical accounting polices” in the Management Discussion and Analysis. The SEC indicated that a “critical accounting policy” is one which is both important to the portrayal of a company’s financial condition and results, and requires management’s most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. We do not believe that any accounting policies fit this definition for our company.

Recently Issued Accounting Pronouncements

No recent accounting standards or interpretations issued or recently adopted are expected to have a material impact on the Company’s financial position, operations or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of April 30, 2011. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of April 30, 2011 our disclosure controls and procedures were not effective. There have been no changes in our internal controls over financial reporting during the quarter ended April 30, 2011.

Management determined that the material weaknesses that resulted in controls being ineffective are primarily due to lack of resources and number of employees. Material weaknesses exist in the segregation of duties required for effective controls and various reconciliation and control procedures not regularly performed due to the lack of staff and resources.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

Item 1A. Risk Factors
